TAILORING TRAINING PROJECT PROPOSAL
PROGRAM TITLE: COMPREHENSIVE TAILORING SKILLS DEVELOPMENT PROGRAM
NAME OF INSTITUTE: COMMUNITY ACTION NETWORK (CAN)

1. Program Overview and Objectives

The Comprehensive Tailoring Skills Development Program is a 12-month vocational training initiative designed to equip 100 students with practical tailoring skills and business management knowledge. This program seeks to prepare participants for employment or entrepreneurship in the garment industry, addressing the pressing need for skilled workers and economic opportunities among youth.

Objectives:

- Deliver comprehensive tailoring skills training to 100 students, covering cutting, sewing, finishing, and garment construction.
- Enhance employability by aligning skills with garment industry standards.
- Foster entrepreneurship through targeted business management, marketing, and financial literacy workshops.
- Contribute to socio-economic development by creating a pipeline of skilled workers and potential small business owners.

2. Target Audience and Need

This program targets 100 individuals aged 18-30 who are currently unemployed or underemployed and express interest in a tailoring career. The initiative addresses the dual challenges of youth unemployment and the lack of accessible vocational training. By providing hands-on skills and entrepreneurial knowledge, the program offers participants pathways to employment in the garment sector or the ability to launch their own tailoring businesses, thereby promoting economic empowerment.

3. Program Structure and Curriculum

The program integrates theoretical instruction and hands-on practical training to ensure participants gain a well-rounded skill set.

Curriculum Breakdown:

Theoretical Instruction:

- Pattern making and garment design
- Fabric selection and properties

- Basics of business management

Practical Training:

- Cutting, sewing, and finishing techniques
- Garment construction in a fully equipped workshop

Entrepreneurship Workshops:

- Customer service and marketing strategies
- Financial literacy and business planning

Duration: 12 months, progressing from foundational skills to advanced techniques and business training.

4. Equipment and Resources required

To deliver high-quality training, the program requires specialized tailoring equipment and modern tools for education and administration.

Implementation Plan and Timeline

The program will operate for 12 months, following a clear timeline to build skills progressively.

Months 1-3: Foundational Tailoring Skills

- Focus: Basic cutting, sewing, and finishing techniques.
- Activities: Introduction to industrial sewing machines, over-lock machines, and basic garment construction (e.g., simple skirts, shirts).
- Theoretical: Basics of pattern making, fabric properties, and workplace safety.
- Outcome: Participants master fundamental tailoring skills and produce basic garments.

Months 4-6: Intermediate Tailoring Techniques

- Focus: Intermediate sewing and finishing techniques, including working with diverse fabrics.
- Activities: Hands-on practice with more complex garments (e.g., trousers, dresses) and introduction to embroidery machines for decorative work.
- Theoretical: Advanced pattern drafting and fabric selection for specific garment types.
- Outcome: Participants create intermediate-level garments and gain confidence with specialized equipment.

Months 7-9: Advanced Tailoring and Design

- Focus: Advanced garment construction and design principles.

Activities:

- Training on CAD software using computers/laptops for digital pattern making; construction of complex garments (e.g., tailored suits, cultural attire).
- Theoretical: In-depth design principles, including customization and trend analysis.
- Outcome: Participants produce high-quality, market-ready garments and develop proficiency in CAD tools.

Months 10-12: Entrepreneurship and Business Management • Focus: Preparing participants for employment or entrepreneurship. **Activities:**

- Entrepreneurship workshops on customer service, marketing strategies (including social media and e-commerce), and financial literacy (budgeting, pricing, accessing microfinance).
- Practical projects: Participants design and produce a small collection of garments to showcase skills, supported by a basic business plan.
- New: Business pitching sessions and networking events to connect with local industry partners or microfinance institutions.
- Theoretical: Supply chain management, digital marketing, and business ethics.
- Outcome: Participants are equipped with entrepreneurial skills, a portfolio of work, and a viable business plan or job-ready skills for the garment industry.

Trainee Selection: Participants will be chosen based on motivation, commitment, and interest in tailoring to ensure an engaged cohort.

Training Schedule: Monday to Saturday, 9:30 AM to 5:30 PM, in a dedicated facility with space for lectures and practical work.

Instructors: Three qualified instructors with at least five years of tailoring and teaching experience, supported by administrative staff.

5. Expected Outcomes and Impact

Upon completion, participants will achieve the following:

- Certified proficiency in tailoring, enabling independent garment creation.

- Skills in modern tools like CAD software and industrial equipment.
- Business knowledge to launch and manage a small tailoring enterprise.

Impact: Increased employment opportunities in the garment industry.

Empowerment of youth through marketable skills and entrepreneurial potential. Strengthened local economy via skilled workers and new businesses.

6. Conclusion

The Comprehensive Tailoring Skills Development Program is a transformative initiative to combat youth unemployment and drive economic growth through vocational training. By equipping 100 students with tailoring expertise and business acumen—supported by modern tools like computers and laptops for CAD training— this program prepares participants for both traditional and innovative roles in the garment industry. Its structured approach and focus on practical outcomes make it a valuable investment in human capital and community development.

7. Appendices

Appendix A: Detailed Equipment List and Costs

Appendix B: Curriculum Outline

Appendix C: Instructor Qualifications and Recruitment Plan

Budget and Financial Projections

Tailoring Equipment:

No.	Item	Quantity	Rate	Amount
1.	Industrial sewing machines	50	1,000,000/=	50,000,000/=
2.	Over-lock machines	5	2,000,000/=	10,000,000/=
3.	Embroidery machines	2	8,000,00/=	16,000,000/=
4.	Miscellaneous supplies (fabric, thread, tools)			3,100,000/=
	Subtotal			**79,100,000/=**

Computers and Office Equipment's

No	Item	Quantity	Rate	Amount
1.	Desktop computers for administrative tasks and CAD training for students and staff	40	800,000/=	32,000,000/=
2.	Laptops for instructors and flexible training needs	10	3,000,000/=	30,000,000/=
3.	Printers for patterns and documentation	10	700,000/=	7,000,000/=
4.	Projectors for presentations	2	3,000,000/=	6,000,000/=
5.	Photocopy machine (Canon Copier "2224")	1	4,000,000/=	4,000,000/=
6.	Office chair for staff (portable)	10	350,000/=	3,500,000/=
7.	Rotating chairs for Directors Secretary	5	900,000/=	4,500,000/=
8.	Tables students and staff	40	600,000/=	24,000,000/=
9.	Student seats for classroom and workshop use	100	100,000/=	10,000,000/=
10.	Video cameras (canon)	2	4,000,000/=	8,000,000/=
11.	Office Cameras	3	300,000/=	900,000/=
12.	Office stationery(Stamps, Reams, Receipts, wall clocks etc)			1,000,000/=
13.	Marketing, License, Certification etc.	12months		5,000,000/=
14.	Vehicle for transport	Car and motorbike		70,000,000/=
15.	General meetings and workshops	Twice a year		1,000,000/=
16.	Accommodation 5 Staffs [driver, cleaner, cook, 2 Security guard]	300,000x5staff Monthly	1,500,000/= 12months	18,000,000/=
17.	Utilities (electricity, water, internet, fuel)	200,000/=monthly	200,000/= 12months	2,400,000/=
18.	Instructors' salaries	300,000/=x5 monthly	1,500,000/=	1,800,0000/=
19.	Instructors' allowance	100,000/= x 5 weekly 400,000/=	400,000/=x12	4,000,000/=
20.	Miscellaneous			5,000,000/=
	Total Equipment			**202,500,000/=**

Breakdown
Total Calculation:

No.	Item	Quantity	Rate	Amount
1.	Tailoring Equipment			79,100,000/=
2.	Computers and Office Equipment			202,500,000/=
	Grand total			**281,600,000/=**

The total estimated budget for the 12-month program is 281,600,000/=Ugx
Covering all essential costs for successful implementation.
